

Delta College Redirect Guide

The Delta College Redirect Application is a tool that can be utilized for shortening long URL links into a more manageable and easily recognizable URL.

Step One: To begin insert the URL link you want shortened into the URL field as shown below in Figure 1.

Figure 1.	
REDIRECT	
URL*	
https://timeclock.delta.edu/UTENEW/login.aspx?ReturnUrl = %2fUTENEW%2fultrapunch%2flogin.aspx = %2fUTENEW%2flogin.aspx = %2fUTENE%2flogin.aspx = %2fUTENEW%2fUTENE%2flogin.aspx = %2fUTENEW%2flogin.aspx = %2fUTENEW%2flogin.aspx	<u>ه</u>

CREATE	

Step Two: The Redirect URL field is where we create what our new URL link will be. For this example we will enter "timeclock" giving us our new URL <u>https://apps.delta.edu/redirect/timeclock</u>
